

# WHAT'S TOP OF MIND

## for People with Multiple Sclerosis?

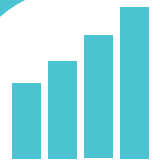

New survey explores the unpredictability of MS and how the community navigates these challenges.\*

**MANAGING THE DISEASE, FINANCIAL PLANNING AND STAYING IN THE WORKPLACE ARE CRITICAL CONSIDERATIONS.**

**Sixty percent** of those surveyed with MS say that the condition has the greatest impact on their work life.

Approximately **two-thirds** say financial planning for an unpredictable future is high on the list.

Nearly **six of 10** are concerned about managing the disease. Nearly **seven out of 10**, including support partners, are seeking more information to help them do so.

More than **75 percent** of those surveyed with MS say that managing their symptoms interferes with hobbies or time with family.

## LET'S WORK TOGETHER

to help ensure that the MS community has the **knowledge, tools and treatment options** to manage this disease.
